

***SpaceAge*[®] Dealership Application Form for Agricultural Water Conditioning Equipment**

SpaceAge[®] Concepts (India) Ltd, a NGO and a non-profit organization in Mumbai, India in collaboration with *SpaceAge*[®] USA, has launched a program to distribute **Free of Cost** highly advanced Agricultural Water Conditioning Equipment to needy, deserving and passionate small farmers.

To set up this network for **Free of Cost** Distribution of Agricultural Water Conditioning Equipment to qualified small Farmers, *SpaceAge*[®] will appoint dealers with experience in retail sales and service of wide range of agricultural products to farmers in their area of operation and also to qualified Agricultural Engineers.

Dealers will be given training in the use and implementation of this highly advanced and innovative technology supporting sustainable agriculture which has been developed in the Research Labs of *SpaceAge*[®], USA over the past over 3 decades.

Appointed dealers will provide on going support to preselected farmers in their area after the installation of these highly specialized Agricultural Water Conditioning Equipment on the farms of needy, deserving and passionate small farmers.

Dealers will receive continued support from *SpaceAge*[®] on Zoom, WhatsApp and by Email.

In addition, dealers will get a 50% discount on any additional water conditioners that they may wish to sell in their area to medium and large farmers who did not qualify under our scheme for Free of Cost supply of Agricultural Water Conditioning Equipment, during the first year of their appointment.

Interested dealers experienced in sale and distribution of agricultural products and Agricultural Engineers are requested to complete the enclosed Dealer Application Form and email back to *SpaceAge* in Mumbai at: sac@space-age.com

Establishing New **Standards** For **Agricultural** Water Management

SW50A WATER CONDITIONER

Pipe Diameter 2 in. to 2.5 in (50 mm to 63 mm)

Quality Systems for all types of Agricultural Water Conditioning. Small & Large Farms with drip irrigation can now enjoy all the benefits of increased production and profitability; shorter crop cycles; improved water delivery with less maintenance cost; healthier and nutritionally enhanced and tasty produce.

SpaceAge SW50A Water Conditioner eliminates and prevents hard water scale buildup. This is accomplished without salt or other chemicals through Dynamic Conditioning of Water (DCW) and since the process is non-chemical, it does not pollute water systems.

Quality - Lower Cost - No - Maintenance - Long Life
Simplicity - Energy Saving - Non - Chemical
Limited Lifetime Warranty
Environmentally Friendly

Subject:- Inclusion of Magnetic Fluid Conditioner in Drip as a optional item

Sir,

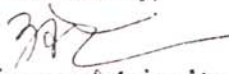

With reference to the above subject, it is stated that Space Age a supplier of magnetic fluid conditioner device has approached for inclusion of these conditioners as a optional item in drip sets.

The proposal has been discussed in our State Level Committee. Magnetic water conditioners affect the carbonates and bicarbonates and other soluble salt molecules like calcium and magnesium. As unconditioned water passes through a properly designed magnetic conditioning device the principle of magnetic resonance causes the rupturing of breaking apart of clusters of water molecules. It is known that conditioned water can take crystallized calcium carbonate back into solution conditioned water also more easily dissolve other minerals such as magnesium, nitrogen, phosphorous, potassium, etc. which are needed for plant growth. It is mainly helpful for avoiding clogging in drippers., as the complexes of CaCO_3 , MgCO_3 never get formed. The technical booklet is attached herewith.

You are therefore requested that above mentioned device may be considered as a optional item in drip set. The copy of I.I.T. report is enclosed herewith.

Thanking you,

Yours faithfully,

Commissioner, Agriculture

TO WHOM! SO EVER IT MAY CONCERN

This is to certify that Magnetically treated water is capable of dissolving existing Calcium Scale in pipes and nozzles carrying Hard Water and also prevent the formation of new Scale.

I have therefore no hesitation in recommending the Magnetic Water Conditioners of SpaceAge Concepts (India) Ltd, Mumbai 400 059. as essential components of Drip Irrigation Systems for Agriculture

Specifications / Indian Price List - January 01, 2023

In Indian Rupees for shipment within India and neighboring countries.

Agricultural Water Conditioners (For Agricultural Applications Only)

Model No.	Pipe Size In inches / mm	Price in Indian Rupees	Unit Weight
SW25A	1.0" to 1.5" / 25 to 38 mm	Rs.20,000.00	8.0 lbs / 3.50 Kgs
SW50A	2.0" to 2.5" / 50 to 63 mm	Rs.35,000.00	22 lbs / 10.0 Kgs
SW100A	3.0" to 4.0" / 75 to 100 mm	Rs.75,000.00	55 lbs / 25.0 Kgs
SW150A	5" to 6" / 125 to 150 mm	Rs.150,000.00	100 lbs / 45 Kgs
SW200A	7" to 8" / 175 to 200 mm	Rs.250,000.00	170 lbs / 77 Kgs

Warranty: Three years parts and labor.

Before buying, it is important to determine the diameter of the water pipe.

Our units are clamp on type, that fit on the outside of the water pipe.

If your water pipe is say 50.0 mm / 1.0 inch diameter and hardness of the water is 150 ppm then you will require to use our model SW50A. For much higher hardness you might have to use two or more units in tandem.

Note:

To all the above prices please add SHP (shipping, handling and processing) charges. Courier / transportation charges to your final destination are as applicable.

Please make payment in favor of the following Beneficiary:

SpaceAge Concepts (India) Ltd., Mumbai, India

Bank Account No.: 10512229718

Bank Name: State Bank of India

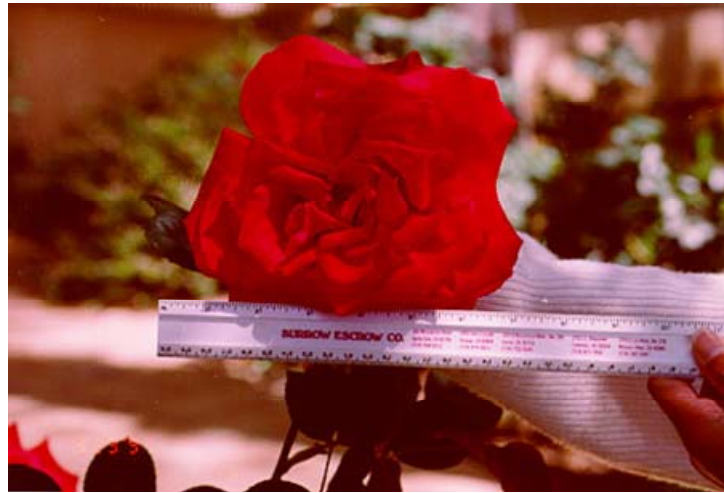

MICR Code of the Bank: 400002002

IFSC Code of the Bank: SBIN0000539

* Please deposit your local Bank cheque with State Bank of India nearest to you and they will make the Electronic Transfer directly in to our account in Mumbai.

Please inform us when you remit the payment so that we can trace the same at our end at credit it to your account.

Innovators in Alternative Agricultural Technologies!

A person is standing in a kitchen, holding a very long, light green vegetable, likely a spaghetti squash, vertically. The person is wearing a grey tank top and black pants. The kitchen has dark wood cabinets and a granite countertop. The floor is made of light-colored stone tiles. The vegetable is held with both hands, one near the top and one near the bottom. The vegetable is long and cylindrical, with a slightly tapered end. The person's face is not visible as they are looking down at the vegetable.
